

Introduction

This document explains the holdings, risk profile and performance of the Mylo Money Market ETF Fund.

Who should invest in this fund?

This fund is similar to a high interest savings account and is for investors who:

- Have a short-term goal and need access to their money (i.e. liquidity).
- Are only comfortable with a very low risk of loss.
- Want to benefit from a premium interest rate that's calculated daily to maximize earnings.

What does the fund invest in?

Fund Objective: Provide investors with exposure to high-quality, short-term money market securities.

Fund Strategy: The Fund may invest in ETFs and other products selected to provide a risk/return profile tracking the FTSE TMX Canada 91 Day T-Bill Index.

How risky is it?

Tactex Asset Management rates the fund low risk. A method of measuring risk is to see how much a fund's returns change overtime. This is called volatility. A high volatility means that the returns change the most often over time while a lower volatility typically have returns that change less over time. This means that there's a lower risk of losing your money.

Your portfolio manager may invest your money in one or several of three funds depending on the portfolio they select for you —the Mylo Money Market Fund, the Mylo Fixed Income Fund and the Mylo Equity Fund—depending on your financial situation, time horizon and risk aversion. The chart to the right breaks down the five different kinds of portfolios.

	Conservative	Conservative / Moderate	Moderate	Moderate / Aggressive	Aggressive
Money Market Fund	100%	40%			
Fixed Income Fund		60%	60%	40%	20%
Equity Fund			40%	60%	80%

A word about tax

As with most investments, income tax must be paid on any money earned on a fund. The amount paid for income tax is determined by the tax laws in your province and country of residence, the type of distributions made by the fund and if the fund is held in a registered plan (such as a Registered Retirement Savings Plan or Tax-Free Savings Account).

Note that if your funds are held in a non-registered account, the fund distributions and capital gains are included in your taxable income whether you get them in cash or have them reinvested.

Investors are urged to consult with their own tax advisors to determine the tax consequences to them of an investment in the Mylo Money Market Fund.
