

Introduction

This document explains the holdings, risk profile and performance of the Moka SRI Fund.

Who should invest in this fund?

This fund is for investors who:

- Want to invest in a diversified portfolio of stocks, in a manner consistent with addressing the world's major social and environmental challenges such as climate change, gender diversity in the workplace, corporate responsibility and sustainable development.
- Have medium and long-term goals and want to see more growth over time.
- Can afford to see fluctuations in their account and accept a higher risk of loss in the short term.

How has the fund performed?

The following performance data represents past performance. As of December 31, 2019, the lowest monthly return since inception was in December 2018 (-6.09%) and the highest monthly return was in January 2019 (+5.43%). The Fund's cumulative return since inception is +12.15%.

How risky is it?

Tactex Asset Management rates the Fund medium to high risk. A method of measuring risk is to see how much a fund's returns change overtime. This is called volatility. A high volatility means that the returns change the most often over time while a lower volatility typically have returns that change less over time. This means that there's a lower risk of losing your money.

Who manages my portfolio?

Dr. Liam Cheung, M.Sc, Ph.D, CFA, AFA, is CEO and senior Portfolio Manager at Tactex Asset Management with over 25 years of experience in the financial services industry. He oversees the investment of the portfolio.

David Fortin, CFA, is the COO, CCO and Portfolio Manager at Tactex Asset Management. He is responsible for the day-to-day management of key operating and compliance functions.

What funds are in a portfolio?

Your portfolio manager will invest your money in two funds—the Moka Money Market Fund and the Moka SRI Fund—in varying weightings depending on the portfolio they select for you, and depending on your financial situation, time horizon and risk aversion. The chart to the right breaks down the five different kinds of portfolios.

	Conservative	Conservative / Moderate	Moderate	Moderate / Aggressive	Aggressive
Money Market	90%	70%	50%	30%	10%
SRI Fund	10%	30%	50%	70%	90%

A word about tax

As with most investments, income tax must be paid on any money earned on a fund. The amount paid for income tax is determined by the tax laws in your province and country of residence, the type of distributions made by the fund and if the fund is held in a registered plan (such as a Registered Retirement Savings Plan or Tax-Free Savings Account).

Note that if your funds are held in a non-registered account, the fund distributions and capital gains are included in your taxable income whether you get them in cash or have them reinvested.

Investors are urged to consult with their own tax advisors to determine the tax consequences to them of an investment in the Moka SRI Fund.

Glossary

NAV (Net Asset Value) is the total dollar amount of assets that are in a fund, and it grows as more people invest in the fund.

NAVPS (Net Asset Value Per Share) is the price of each unit in the fund, and it increases when the fund performs well. All Moka Funds began at \$5.00.

MER (Management Expense Ratio) is the ongoing cost of operating the fund that is charged to the fund, which reduces overall returns. We do not charge management fees or any other fees on Moka Funds.

Price/Earnings Ratio is the ratio of a company's stock price to the company's earnings per share.

Distribution Yield measures cash flow paid by the fund.

ESG Risk (Sustainability score) is a measure of how well the portfolio holdings are managing their environmental, social and governance risks. A score of 50 represents severe ESG risk while a score of 0 represents no ESG risk.

Carbon Risk is an evaluation of the degree to which a firm's activities and products are aligned with the transition to a low-carbon economy. A lower score is better.

Fossil Fuel Involvement is a the portfolio's asset-weighted percentage exposure to fossil fuels, averaged over the trailing 12 months. A lower score is better.
